# NOAA WP-3 SENEX 2013 Test flights at MacDill

http://esrl.noaa.gov/csd/projects/senex/

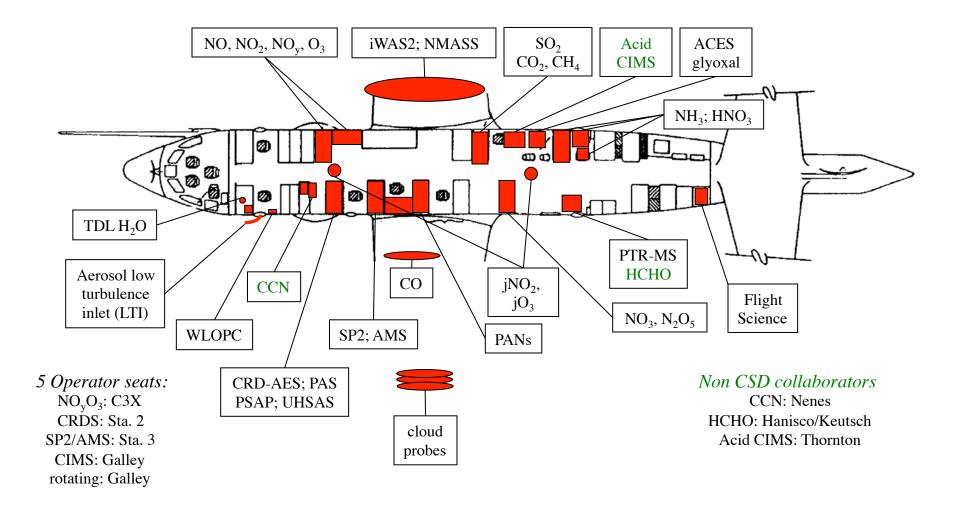

### **SENEX** integration finished

- Very smooth 4 weeks
- All instruments loaded: almost 7900 lbs
- All instruments power and safety checked
- HazMat procedures in place
- Configuration Control Team in progress

Thanks to everybody !!!!

Special thanks to the AOC team !!!!

### N42RF payload installed - SENEX 2013

2-page instrument descriptions available on the website

### Schedule for 125 flight hours 6 weeks

### MAY 2013

	<u>July 15</u> :	tra	nsit to Tan	npa		
	July 16 17					

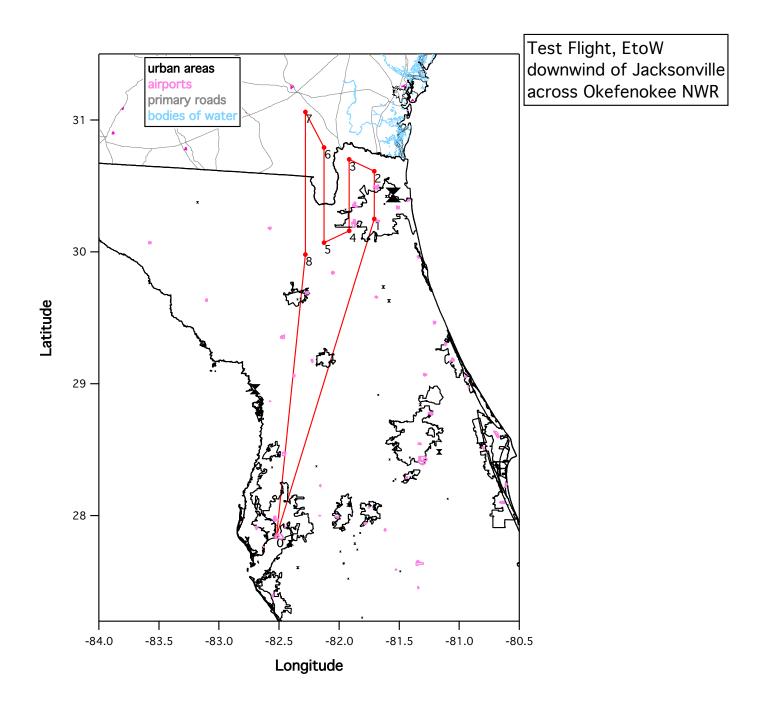

<u>July 16-17</u>: de-integration

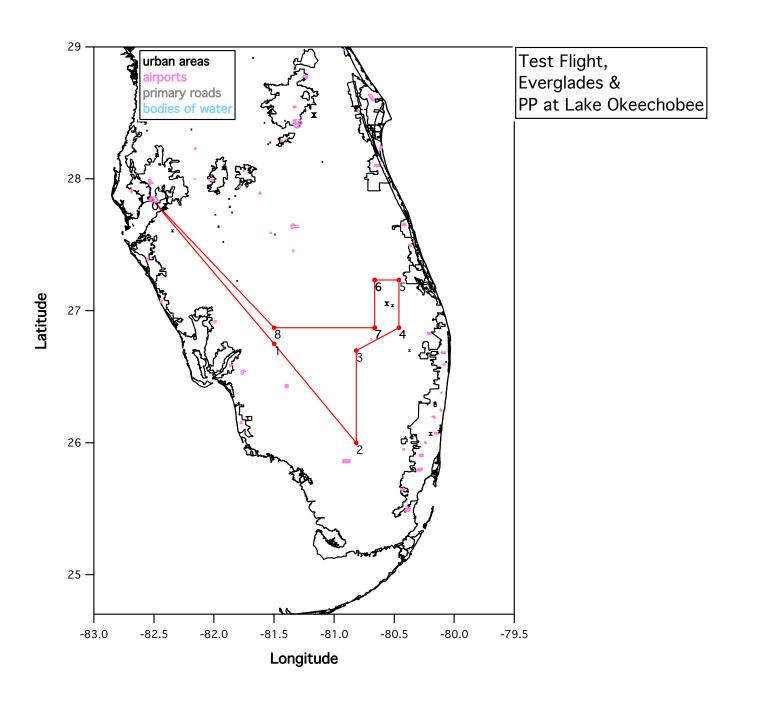

July 18: truck to Boulder

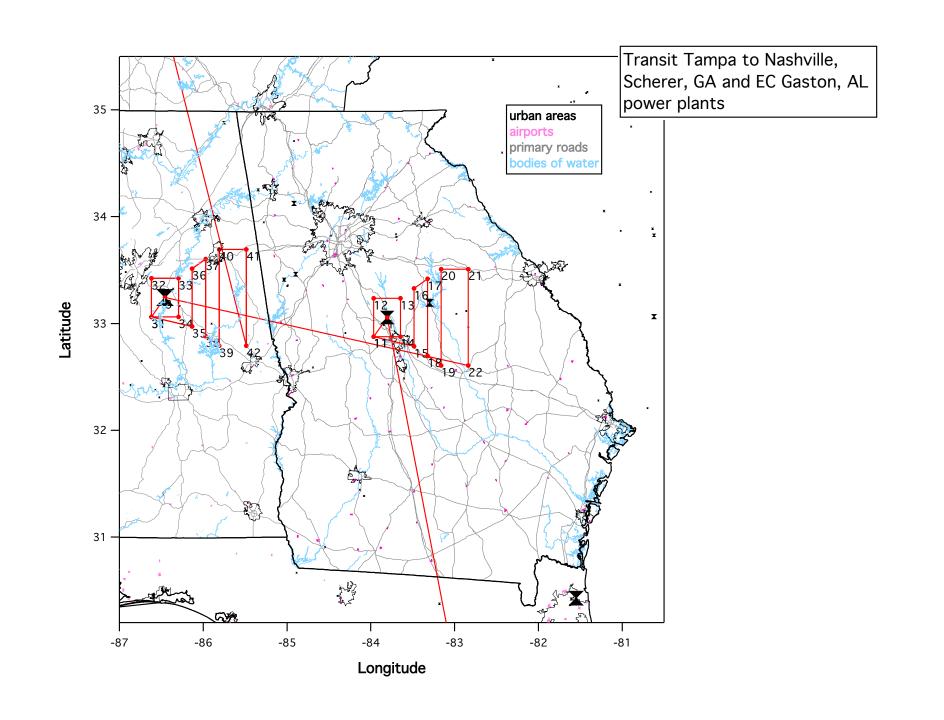

July 22: unload truck go to the Rio

### Test flight week May 28 - June 3

- Tool control continues: NO EXCEPTIONS
  - Lots of people: need to share tools
  - Only specialty tools allowed: marked and inventoried
- Test instruments on Tuesday May 28
  - Resolve last issues on various instruments
  - Power check with all instruments running
- First test flight as early as Wednesday May 29
  - try science goal in Florida
  - Expect long pre-flight
  - Seats will be assigned according to instrument issues
- Second test flight on Friday May 31
- Access days over the weekend
  - Get last instrument issues resolved
  - Packing for the truck
- Transit on Monday June 3: full science mission

### **Shipping to Smyrna**

- Truck from Boulder to Smyrna: May 24 (Joost)
  - Personal items okay, but within reason: we are worried about overful truck from Smyrna back to Boulder
- Truck from Tampa to Smyrna: June 3 (Carsten)
  - June 3 after P3 leaves
  - HazMat info the same as Boulder Tampa (minus what is on P3)
  - Load truck June 2 and finish after take-off

#### **Inlet covers**

If you have a cover on your inlet or a streamer that needs to be removed before the functional test flight

Let me know today !!!!

### **Office Space:**

2500 sq ft

<5 min walk from hangar 621

Suite 116, 661 Fitzhugh Blvd

Access: contractor badge (after hours) and keypad

## Security and Badging at Smyrna Airport

- Limited group of people will be given contractor badges: open gates to SIDA and door to office building (after hours)
- CAC cards and NOAA badges will be accepted as valid forms of ID. Wear them visibly inside the SIDA
- Non-CAC card or NOAA ID holders: need to make name tag. <u>Send</u> me and Debe Fisher a passport photo asap
- We have provided a list of all participants (http://tinyurl.com/ SENEXpeople). Let me know of any changes. If you are not on the list, the airport cannot verify you belong to the project
- Need to watch a safety and security slide presentation: May 21 at noon in room 2A305. Other opportunities at MacDill or in Smyrna.
  - Security requirements are straightforward to deal with
  - Do comply with all the rules and be a responsible guest

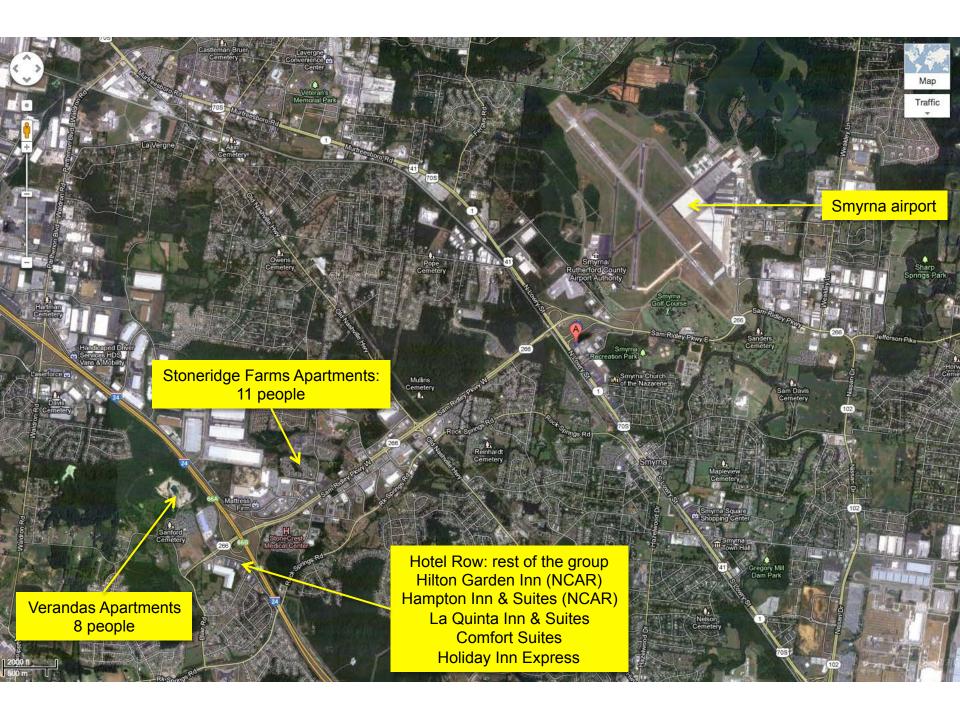

## Safety at Smyrna Airport

- We need to provide a list of hazmat and MSDSs
- I will compile these from hazmat lists for Boulder Smyrna and Tampa Smyrna trucks
- Let me know of any direct shipments to Smyrna this week and during the project

### Lodging

Alert! Alert! Alert!
Country Music Festival - June 6-9:
Large demand for hotel rooms and rental cars

If you haven't booked travel for this period, do it now
